To Whom It May Concern:

Subject: Recommendation for Mr. Muhammad Zeeshan's Technical Leadership and Project Expertise

Dear Sir/Madam,

I am Danish Khan, currently serving as the Business Development Manager at ForeVision Trading Company, Jeddah, Saudi Arabia, where I have been employed for over 21 years. During this time, I had the privilege of collaborating closely with Mr. Muhammad Zeeshan on the Saudi Aramco Plate Recognition System (PRS) project.

In his role as Lead Software Engineer and Technical Lead, Mr. Zeeshan was responsible for the system architecture, deployment, and commissioning of a critical platform that supports Saudi Aramco's security and intelligent transportation operations. I worked alongside him during key phases of the project, including Factory Acceptance Testing (FAT), Site Acceptance Testing (SAT), deployment, and commissioning activities across more than 34 locations and over 100 traffic lanes.

Throughout the project, Mr. Zeeshan consistently demonstrated exceptional technical leadership, problem-solving abilities, and a remarkable capacity to deliver complex, high-availability systems. He also conducted technical workshops and facilitated stakeholder sessions, ensuring the successful implementation and operational readiness of the system. His deep expertise in software architecture, ANPR systems, intelligent transportation solutions, and enterprise-scale platforms was a cornerstone of the project's success.

Based on my firsthand experience working with him, I can confidently say that Mr. Zeeshan is an innovative, dependable, and highly skilled technology professional. I wholeheartedly endorse Mr. Muhammad Zeeshan and strongly recommend him for roles that require technical leadership, innovation, and a deep understanding of intelligent transportation and enterprise software systems.

Yours sincerely,

Danish Khan

Business Development Manager
